This Scope of Objectives (SOO) provides the details of work to be performed for the Air Force Civil Engineer Center (AFCEC) through a cooperative agreement (CA). The CA purpose is to improve existing and develop new cultural resources training items and modules. The AFCEC Environmental Directorate requires technical expertise for environmental programs to ensure that Air Force and federal environmental regulations are met while minimizing the impact of Air Forces activities on cultural and tribal resources. AFCEC has also been directed to provide training for expert and non-experts especially in areas of tribal relations pursuant to AFI 90-2002, Air Force Interactions with Federally-Recognized Tribes, as well as all other aspects of cultural resources compliance per AFI 32-7065, Cultural Resources Management. The cooperative agreement establishes a cost-effective, time-efficient, and flexible capability to support AFCEC program.

In accordance with the Sikes Act (Sec. 103A [16 USC 670c-1]) “the Secretary of a military department may enter into cooperative agreements with States, local governments, Indian Tribes,
non-governmental organizations, and individuals.” This project is in support of the Integrated Natural Resources Management Plan, as directed in the Sikes Act, and as a result, it is anticipated that a cooperative agreement through the CESU program will be awarded. Such awards may be administered through a CESU only upon mutual agreement and official authorization by both parties of the acceptance of the application of the CESU Network IDC rate (17.5%).
