

WAPA is hiring | Environmental Protection Specialist (GS-11/12) – Upper Great Plains Region → <https://www.usajobs.gov/job/860328100>

 Apply by Monday, March 23

We're seeking an Environmental Protection Specialist to join WAPA's Upper Great Plains Region, supporting hazardous waste management and environmental compliance across the region. This role helps ensure our facilities and operations meet federal and state environmental requirements while supporting reliable power delivery.

#### ABOUT THE ROLE:

- ◆ Manage hazardous and toxic material programs for an assigned geographic area
- ◆ Support environmental compliance inspections and facility assessments
- ◆ Investigate environmental incidents and prepare reports for state and federal agencies
- ◆ Coordinate programs related to groundwater protection, waste minimization, pollution prevention, and environmental monitoring
- ◆ Provide technical guidance and support for environmental compliance and emergency response activities

 Locations: Huron, SD | Watertown, SD

 Two vacancies

#### WHY WAPA?

- ✔ Mission that matters: Help protect the environment while supporting infrastructure that powers communities across the West and Great Plains.
- ✔ Real-world impact: Work directly with facilities, field operations, compliance programs, and environmental response efforts.
- ✔ Career growth: GS-11/12 career ladder with promotion potential to the full performance level.
- ✔ Public service with purpose: Support responsible stewardship, safety, and reliability in a mission-driven organization.

Don't wait: Position closes Monday, March 23 → <https://www.usajobs.gov/job/860328100>
